Quite good company, worked in a proper agile environment, learnt a lot by facing healthy challenges daily. Worked on Asp Net Core, Asp Net MVC5, WPF, Xamarin, MEAN Stack, and other techs.

Inseparable Technology PVT. LTD

May 2017 - Aug 2017 (3 months)

Junior Web Developer

Lahore, Pakistan

Learnt a lot here, Contributed in their core project as a backend developer, using Asp Net MVC5, SingalR, Quartz.Net and other tools.

Telco Communications PVT. LTD.

Nov 2014 - Aug 2016 (1.8 years)

Customer Service Representative

Lahore, Pakistan

It was a great positive experience, learnt a lot from there, polished my communication skills and English vocabulary and made many good friends.

Projects

UFC Gym Membership System

Sep 2019 - Present (8 months)

Company: UFC Gym Lahore / Boltech

Tools: .Net Core 3.0, EF Core 3.0, MySQL, Angular 8

It's a membership management system, which is also integrated with RFID access gates at UFC Gym Lahore, to control member access through web app.

MRA Taxation Portal

Jun 2019 - Present (11 months)

Company: MRA / Boltech

Tools: .Net Core 2.0, Angular 7

It's a World Bank funded project for Malawi Revenue Authority, Africa. Currently being developed by our team at Boltech Solutions.

Expeni

May 2018 - Jun 2019 (1.1 years)

Company: Expeni Ivc / Codility.co

<http://app.expeni.com>

Tools: Asp .Net Core & MVC5, KnockoutJS,

Attendance Management System

Mar 2018 - Apr 2018 (1 month)

Company: Codility Solutions / Codility Solutions

Tools: Asp .Net MVC5, Bootstrap, Entity Framework, JQuery

Employees have their logins, They can mark their attendances and can add their daily tasks which they have done. Admin can see all the activities, generate the reports on specified-time basis. Cron Jobs are running to automate the tasks. This system is currently running locally.

Service360

Nov 2017 - Dec 2017 (1 month)

Company: Service360

<http://www.service360fyp.somee.com>

Tools: Asp Net MVC5, Bootstrap, JQuery

It's my Final Year Project. It is actually a website which will help people to request a Maintenance Worker or Handyman to their place from our company. ASP .Net Framework (MVC5), Bootstrap, JQuery, and other technologies are used in this project

if you want to have see a demo .then.
